CS aerotherm stepped into the commercial bakery equipment domain, in the year 1997, with a long-term technical collaboration with FN Aerotherm, Denmark to manufacture rotary-rack (B-900 and B-1300) and electrical deck-ovens and most advanced Diesel, Gas, Electric Rotary Rack ovens. Today our product range not only meets the demand of domestic clients but also find their way to highly satisfied clientele in countries of Indian sub continent, Middle East and Africa.

For the expanding domestic and international client database, our brand 'CS Ovens' stands for quality, variety and dependability.

# Dough Take off Conveyor

We always urge our clients to maintain utmost hygiene standards. With the growing trends of food safety and hygiene, we bring to you our Take off conveyor, which requires zero to a minimal human contact. It is extremely useful in Bread and Rusk manufacturing plants. It is a juncture where rounded dough balls are taken from the Rounder and transported to a Moulder. There's hardly any human contact and it's extremely hygienic and safe to operate. There are flaps on the conveyor to ensure dough doesn't get displaced and falls exactly in the center of the Moulder. It comes with an emergency Stop button keeping in mind the safety standards. It has a capacity of 2000 pcs/hour that saves a lot of time and effort.

## Standard Features:

- Flaps on the conveyor enable a precision movement of dough
- Can commute upto 2000pcs/hr
- Safe and easy to operate.
- Minimal Human contact
- Extremely safe and Hygienic
- Saves a lot of time and effort

## Specifications

Details	Specifications
Model	T-CON
Production Capacity (Pcs / Hr)	2000
Installed Power (KW / HP)	0.18 / 0.25
Voltage and Phase (Volts / Phase / Hertz)	440 / 3 / 50
Machine Dimensions (L x W x H) in mm / inches	2000 x 451 x 1892 / 79 x 18 x 75
Weight (Kgs)	120
